Performance Task

Pius Ambrose Cicero Aguilar

BSIT-203

Code

```java
import java.util.Scanner;
import java.util.regex.Matcher;
import java.util.regex.Pattern;

public class Performance_task {
    public static void main(String[] args) {
        Scanner scanner = new Scanner(System.in);

        System.out.print("Enter the first word: ");
        String word1 = scanner.nextLine();

        System.out.print("Enter the second word: ");
        String word2 = scanner.nextLine();

        String sub = word1.substring(word1.length() - 2);

        Pattern pattern = Pattern.compile("[a-zA-Z]{1,2}" + sub);
        Matcher matcher = pattern.matcher(word2);

        if (matcher.matches()) {
            System.out.println(word2 + " rhymes with " + word1);
        } else {
            System.out.println("I'm not sure! Sorry!");
        }

        scanner.close();
    }
}
```

Output

```
Enter the first word: glam
Enter the second word: ham
ham rhymes with glam
```

```
Enter the first word: scum
Enter the second word: cum
cum rhymes with scum
```

```
Enter the first word: diddy
Enter the second word: oil
I'm not sure! Sorry!
```

```
Enter the first word: tennis
Enter the second word: penis
I'm not sure! Sorry!
```
